

A MAJOR REMODEL  
IS HAPPENING AT  
FIRE STATION 47 (City Park Rd)

And the crews will have to be  
**RELOCATED**  
for about 5 months.

Beginning July 1<sup>st</sup>, the Engine and Firefighters  
we have to be quartered at a different station. Meaning your responders will  
be coming from these different locations.

More specifically, the computer-aided dispatch *will select the closest unit*,  
from COA Fire, COA EMS or an ESD, based on their current GPS position.

Most likely, they will come from:

Fire and EMS Station 39 at 7701 River Place

Fire Station 31 at 5507 FM 2222

Fire Station 52 at 4601 Westlake Dr.
